

Distributors Association of Semiconductors & Components in Japan (DAFS)

Business Matching Service Between Manufactures and DAFS's Members

DAFS, as the only association of semiconductor distributors having 51 member corporations in Japan, has been providing high quality services to its members for more than 30 years. We are pleased to announce we have started offering business matching service for Japanese and foreign suppliers looking for distributors in Japan for their products and for our members seeking for new distributorship opportunities. We believe this will benefit both suppliers and our members.

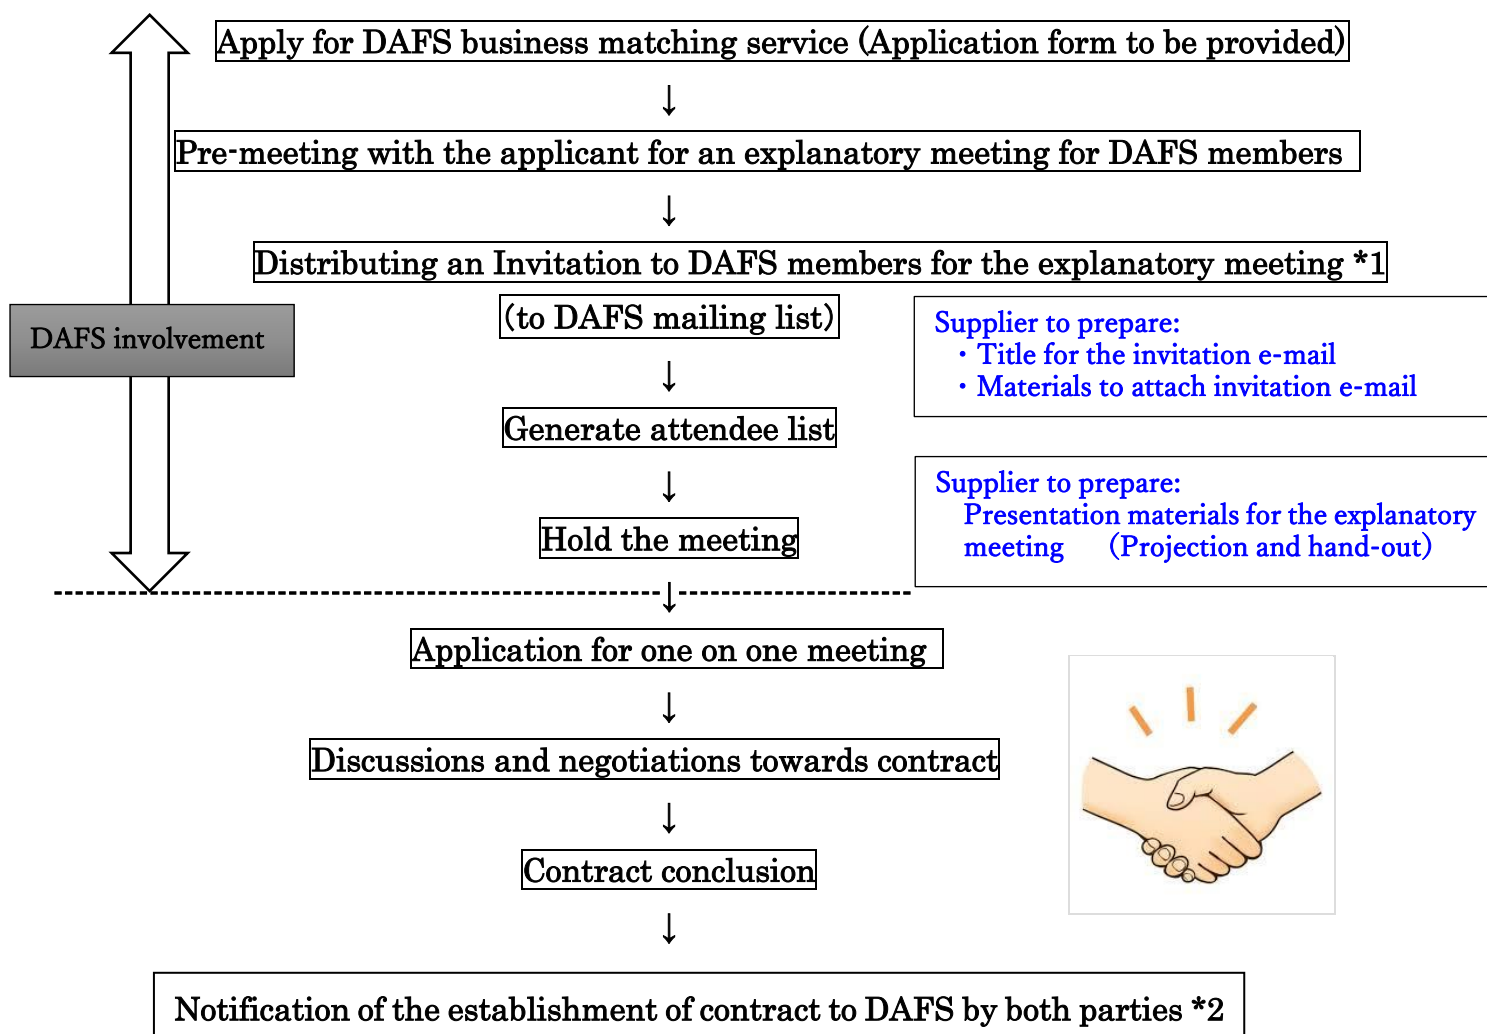

Those who wish to build sales network in Japan, please take advantage of our business matching service. Please refer to the following flow chart for the steps.

« Service for: »

【Suppliers】: Manufacturers of electronics products and its related products

【Distributors】: DAFS Members...51 corporations (As of October 2019)

« Service flow »

Note: *1) There will be a charge for arranging the explanatory meeting at which the applicant will have an opportunity to present its products/services and business conditions in front of the DAFS members who are interested.

*2) The remuneration to DAFS will be contingent upon the conclusion of business agreement(s) between the applicant and the DAFS member(s).
